

THE TOUCHPOINT OF INDIA

BS-L 101 PLATINA SCANNERS HANDHELD

High speed 1D laser scanner

Scan Depth Of 220 mm
Scan from a greater distance comfortably!

Aim & Shoot Trigger -
Gives operational comfort and reduces fatigue especially in peak hours

Easy & Convenient For Long Hours Of Billing
- Provides maximum comfort to the user for day long operations

Durable And Strong Design - Designed to withstand multiple drops from a height of 5 feet

Decodes All 1D Barcodes

Laser Technology - More efficient and accurate first time scanning

The BS-L 101 Platina Advantage

TVS Electronics BS-L 101 Platina is a single line, handheld scanner designed in a rugged finish by elastic rubber protection, and with a durable trigger option most suited for a wide range of retail applications.

This has been especially designed for Indian retailers where long working hours (continuous, all day working) is not uncommon. The product's ergonomic design (the trigger button) ensures reduced user fatigue and maximises comfort. It has been designed to withstand multiple drops from a height of 5 feet - making it highly durable yet an affordable solution for every Indian retailer.

This easy-to-use scanner allows faster checkouts and gives your employees more time to assist customers - enhancing customer satisfaction. It has the capability to track and trace your sales and inventory, thereby eliminating errors at a lowered TCO (Total Cost of Ownership).

BS-L 101 Platina is designed to withstand tough Indian POS environments where wide varying voltage and dusty conditions are a common feature - protecting the life of your investment.

All this comes from a brand that has been an epitome of trust - TVS Electronics, a company that has understood the Indian retailer better than no other.

Scan Depth Of 220 mm - Scans from a greater distance comfortably.

Aim & Shoot Trigger - The easy to trigger button gives you operational comfort and reduces fatigue especially in peak hours.

Durable And Strong Design - Designed to withstand multiple drops from a height of 5 feet making it highly durable.

Specifications

Operational

Light Source	: 650 nm visible laser diode (VLD)
Depth Of Field	: 10 220 mm (UPC/EAN 100%, PCS=90%)
Scan Rate	: 40 scans per second
Scan Angle	: 420
Scan Pattern	: Single scan line

Minimum Bar Width	: 5 mil @ PCS=90%
Print Contrast	: 30% @ UPC/EAN 100%
Indicators (LED)	: Blue LED
Beeper Operation	: Programmable tone & beep time
System Interfaces	: USB , Serial and PS/2

Physical Dimensions

Size (L x D x H) mm	: 72.9 x 121.1 x 172.0
Weight	: 150 g (cable excluded)
Cable	: Standard 2.0 M straight

Power

Input Voltage	: 5V DC \pm 10%
Operating Current	: 120 mA

Regulatory

Laser Class	: IEC 60825-1 Class 2
-------------	-----------------------

Environmental - Operating Conditions

Operating Temperature	: 0°C - 50°C
Storage Temperature	: -20°C - 60°C
Humidity	: 20% - 85% RH (non-condensing)
Light Levels	: Max. 10,000 Lux (fluorescence)
Drop Durability	: Designed to withstand 1.5 M drops

Decoding Capability

Barcodes	: All standard 1D barcodes
----------	----------------------------

Accessories

Barcodes	: USB cable
	: Programming card
	: Warranty registration card
	: Warranty policy
